## Professional Home Technology Solutions

### Transform Your Lifestyle

HouseLogix is Pennsylvania's leading installer of integrated home entertainment, security and energy-saving systems. We specialize in affordable technology solutions that address your family's needs, wants and worries in ways you never thought possible. HouseLogix professionals use the latest home automation, computer networking, security, and audio-visual gear to transform your home. A new kind of wireless technology enables us to easily install our solutions in any home without opening the walls. You can start with a simple one-room system and add additional rooms and features when you are ready. Our team handles every aspect of your project, including electrical work. Once you experience the incredible benefits of our technology in your home, you'll wonder how you ever lived without it.

### One Touch Living

- Get rid of all of your remotes and use simple wireless touch panels to control your entire house
- Control all lights, lamps, thermostats, movies, music, security cameras, garage doors, door locks and more from your touch panels, TVs and mobile phone
- Never again struggle with a pile of remotes to watch a movie, play music or record a TV show
- Enjoy customized one-touch lifestyle buttons to automate common tasks:
  - "Goodnight" to shut off lights and electronics, lock your doors, adjust thermostats, close the garage doors and arm your security system
  - "Entertain" to light the entire house for a party and play your party mix
  - "Arrive" to turn on lights from your car, disarm security and arrive to music
  - "Depart" to shut off everything and arm your security system
  - "Vacation" to put house in full security and energy conservation mode

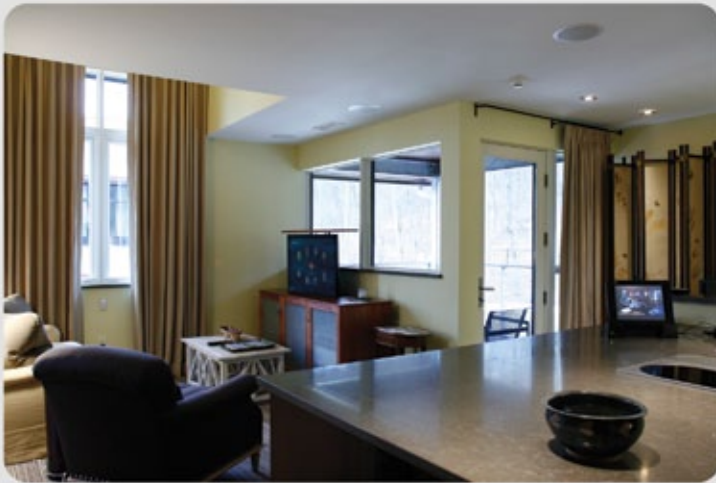

### Gain Peace of Mind

- Install a quality security system that protects your family 24 hours a day
- Add wireless surveillance cameras that automatically record activity inside and outside your home
- Add automated exterior door locks that lock automatically when you go to bed or leave the house
- Add wireless sensors to trigger email, text, or phone messages alerting you to events like "water in basement," "vehicle in driveway," "motion in room," "cabinet opened" and "doorbell rung"
- Touch "Panic" to scare off intruders with loud sounds and flashing lights
- Touch "Help" to instantly notify loved ones that you need assistance
- Control your second home or rental properties on the web or via your mobile phone
- Watch parents, kids and other loved ones on the web for added peace of mind

## Modernize Your Home's Technology and Save Energy

- Install a business-quality WiFi network with reliable high-speed internet throughout your house
- Enjoy whole-home lighting, lamp and shade control features with the ability to define your own one-touch lighting scenes
- Add dimmers to all lights and lamps to save energy and improve ambiance
- Eliminate your landscape timers using our astronomical clock feature
- Add wireless thermostats that can be controlled from the web and automatically adjust to save energy based on occupancy, outside temperature, weather forecast and time of day
- Monitor your home's real-time energy consumption on your TV

## Enjoy New Entertainment Features

- Add a complete home theatre with great surround sound and incredible high definition video
- Add wall-mounted or concealed TV systems to any room
- Your entire music collection is instantly playable in any room without the need to load CDs
- Wireless speaker solutions make all music available in every room without opening the walls
- Rhapsody™ internet music service lets you quickly find and play music from virtually any artist anywhere in your home without buying the music
- Play your iPod's music throughout your house
- Check your email and browse the internet on any TV
- Stream movies and music from the internet throughout your house

## Web & Mobile Control and Messaging

- Adjust your lights, thermostats and hot water heater over the web
- Monitor your security cameras, doors and sensors on your mobile phone
- Control and monitor your house using your iPhone™, Blackberry™ or Windows Smartphone
- Receive automated emails and text messages from your house if there's a problem
- Have your house call you if your children don't arrive home, the alarm goes off, water is in the basement or Dad doesn't get out of bed

## Superior Service and Support

No matter how large or small your HouseLogix project, you can count on first-rate service from true professionals. We handle all of the technical details and work hard to meet each of your expectations. Once your system is finished, you can count on patient training and responsive ongoing support. HouseLogix professionals are passionate about maximizing your family's enjoyment, safety and comfort every day. Contact us to visit our experience center and schedule a free in-home estimate.
